

CULVERT PRICING GUIDE

The culvert diameter needed for your culvert install is determined by the drainage supervisor that assesses your location.

The standard width of a driveway is 20 foot. Precinct 1 can install up to 30 foot culverts. 10 foot extensions can be installed to existing culverts to make them no wider than 30 foot.

The backfill material is sold at a single cost of \$405.00 per culvert install.
